#1 Let's Rock Elmo

Product Name: Sesame Street Let's Rock Elmo

Best Price: \$68.49 (over at [Amazon](#))

Recommended Age: 18 months & up

About

Let's Rock Elmo is the latest in the line of ever popular Elmo toys released by Sesame Street...you can be almost guaranteed that any toddler will absolutely adore this beautifully made Elmo toy!

Imagine the joy on your preschooler's face when they see Elmo almost magically recognize what instrument they've given him and start playing one of six different rock songs.

...& Elmo doesn't just play the songs, he sings them too!

His rock version of the Alphabet Song helps make learning the ABCs fun, while other songs encourage physical activity like dancing, jumping and clapping.

Elmo's arms move in a way that allow him to croon into the microphone, shake the tambourine and pound on the drums.

The interactive, Let's Rock Elmo with the microphone, tambourine & drums is sure to keep any toddler happy for hours on end...but to make things even more fun, Elmo interacts with other LET's ROCK instruments.

He knows when you're playing the LET's ROCK Guitar, Keyboard or Microphone and plays along with you!

Your Let's Rock Elmo package includes:

- Let's Rock Elmo doll
- Microphone
- Tambourine
- Drums
- Instructions
- 6 x AA batteries (these are included)
- ...& hours of fun!

What Other Customers Say...

The newest Sesame Street "Let's Rock Elmo" toy is a welcome surprise for my three year old who absolutely adores Elmo...This new Elmo toy will guarantee hours of fun for any child and some adults(I know I had fun) and it will also help with their developmental and motor skills while giving them the gift of music all combined in one toy. Elmo seems to really be interacting with your child...

...All of the parts are safe and there are no choking hazards for any small children. Your child will love this toy and so will you. - Amazon customer

I have an 18 month old girl and a 6 year old boy and they both love the Let's Rock Elmo. In the past week and a half they have played with it for at least a little while every afternoon. So far he is a very durable toy as my boy plays pretty rough and my daughter has dragged it back and forth to her grandmother's house... - Amazon customer

We are blown away with the articulation of movement this toy has. He really points at the kids and holds the mike toward them when he wants them to sing. The movements are every bit as impressive as the animatronics on the rides at Disney, and Elmo doesn't fall over when he dances, even if he's standing on carpet, which surprised me. You can also really hear a noise when his hand strikes the drum head, not just the prerecorded noise... - Amazon customer

- Stylus
- 4 applications – Pet Pad, Story Studio, Art Studio & 1 app. of your choice.
- Extra stylus with tether.
- USB cable.
- Installation CD
- Quick Start Guide & Instructions.
- Hours of Educational Fun!

What Other Customers Say...

My 7 year-old daughter is at the upper end of usage for this product but it has been great for her none-the-less...The LeapPad Explorer has taken their past products and make them very current, high educational value and high quality...

...The operating system is easy to use and offers parental access to manage user accounts and other features. There is built-in software and games that provide a variety of things to do, whether they are true learning games or puzzle type games. There are some limits as to the kinds of games available but they seem to be adding to the list all the time...This is an investment but it seems to be one that is well thought out and has a lot of room for growth. - Amazon customer

The Leapfrog Leappad is certainly a new favorite for my kids. Leap Frog has always come out with fun and educational tiys in the past and this is no exception. It already comes with a few games and more games can be bought and downloaded from their app store. With people already familiar with the apple store, this is a fairly easy concept to get used to. The game itself is very sturdy and feels like a good quality product. The apps are a bit expensive but as I said, we're used to it these days. I would highly recommend this excellent educational and fun toy for our kids! - Amazon customer

I bought this for my granddaughter for her 2nd birthday. She absolutely LOVES it! She likes to play with my Ipad and my Galaxy Tab, but I wanted to get something just for her that I didn't have to worry about getting broken. So far, this has been rugged and has held her attention. My daughter says it's perfect for when they go out to eat or to the doctor's office. It keeps her occupied and she doesn't get bored! - Amazon customer

Recommended Age: Over 3 years

About

Remote control toys are always popular with kids & adults (the big kids) alike, and this remote control helicopter is no different...yes it really does fly!

Though not a new toy for Christmas 2011, it's one that has consistently made it to the best seller lists for the last few years so is well worth a mention. If your child doesn't have one of these yet & likes remote control toys, then make this one of their presents for 2011!

The Syma Remote Control Helicopter can be used indoors or out for hours of fun. The well designed helicopter model can be flown anywhere you want with it's precise steering and height adjustment via the remote control pad.

Don't like the blue? Don't worry, these helicopters also come in red & yellow!

Your Syma Remote Control Helicopter package includes:

- Remote Control Helicopter – your choice of blue, red or yellow.
- Gyro control pad.

What Other Customers Say...

The Syma S107 is so easy to control that on my first flight I had it tour my whole apartment, zooming in and out of closets and never touching an obstacle until I deliberately landed it. If you've never flown a good RC heli before, you might need to practice a bit. It might be your second or third flight before you get that good.

*The S107 is **really** that easy to control... - Amazon customer*

I used to have one of these that I broke due to fault of my own, ordered a new one from Amazon and this thing works like a champ, my 4 yr old flies it with me with no problem. Great Heli for beginners... - Amazon customer

Ordered this for my husband who loves helicopters and has owned several. First off it came right away. And my husband loved it! Easy to fly. Would have paid more for this copter, as it has been reliable and fun for everyone in the house. Exceptional helicopter for the price!! - Amazon customer

- 5 x AA batteries – no running around looking for batteries on Christmas morning!
- A great new friend for your little girl!

What Other Customers Say...

We just bought this toy for my 6yr old and she loves it. In fact as Im writing this she and my husband are both playing with Willa now. I think that its a good toy for the age group and way more fun than a Furby ever was we have another daughter who will be turning 6 in feb and cant wait to get others for them to play with... - Amazon customer

I bought Willa for a friend's daughter and she still provides is with endless entertainment. I do have to say that we thought Willa was malfunctioning after a bit of use when we first got her (she was repeating herself) but we realized we just needed to change the batteries. Once the batteries were changed she was back to normal. My friends daughter also got a little frustrated at first saying the commands but then we read the directions again and realized we weren't reading the phrases as they were listed. We corrected that and everything has been great. Willa is very fun and entertaining, I highly recommend! - Amazon customer

We got this as a gift from a grandparent and my little girl loves it. Super cute. And if you google the Fijit there are chirps that make your Friend react. So adorable. - Amazon customer

What Other Customers Say...

I am a mom of 4. The 2 boys I bought this for are 8 and 4...they love this set. Lots of pieces for a variety of fun to build. I will be ordering more for the holidays. Keeps them occupied while Im busy doing moms duties. :) - Amazon customer

I bought this for my 4.5 years old grandson. The first time we start to play together and it's such a fun! He loves it and busy with this every time he came to visit me. - Amazon customer

We gave this to our grandson, who's 9, for his birthday and, of course, he loved them. Before, he had to share the Legos we kept at our house with his brothers, now he has his very own. What's not to like? They're durable and promote lots of imagination. Kids love Legos, grownups love Legos, everyone loves Legos! - Amazon customer

#7 Mini Lalaloopsy Treehouse Playset

Product Name: Mini Lalaloopsy Treehouse Playset

Best Price: \$56.99 (over at [Amazon](#))

Recommended Age: 4 – 8 years

About

Wowee...this gorgeous little treehouse playset sure has the wow factor! How many kids don't wish they had their own treehouse to play in? Not many...

Well this is the next best thing to a real treehouse...let their imaginations run wild with this Mini Lalaloopsy Treehouse Playset.

Mini Lalaloopsy dolls fit perfectly in this set and can climb up the tree trunk, swing on the tyre swing and play pretend in their very own treehouse.

It's the ultimate holiday hangout for your child and their Mini Lalaloopsy dolls. Don't have any Mini Lalaloopsy dolls yet? Don't worry, 2 Mini Lalaloopsy dolls are included with the treehouse!

Your Mini Lalaloopsy Treehouse Playset includes:

- 2 exclusive Lalaloopsy dolls.
- 2 pets.
- Tire swing that slides across a zip line.
- Elevator in tree trunk, wind-up basket, bridge & 2 hammocks for doll and pet.

- Removable clubhouse
- Look-out bucket with telescope.
- Real working whack-a-mole.
- Treehouse accessories.
- Never ending amusement!

What Other Customers Say...

Well designed toy that we are all enjoying!!

My kids, 2.5 and 4, are using this house with other small figures, such as mini strawberry shortcake figures and it is mostly compatible.

...This is probably the funnest tree house we've seen. Includes an elevator, a look out tower that swivels, two hammock swings and a tire swing that also is a zip-line when attached to the string.

It's a pretty flexible toy, as the trees separate the the clubhouse is removable. My kid's have been using it in very imaginative ways, such as taking off the look-out tower and climbing up the "coconut trees" to get coconuts down. (The trees are not actually coconut trees, as you probably can tell!)

There are many different spaces for little figures to play or sit, probably up to ten toy figures could be in the tree house at a time! So far there haven't been many fights about whose people goes where, I think because there are a lot of options regarding where to play...if you are wanting to buy a playhouse / tree house for your kids this is pretty fun one! - Amazon customer

The brand new Mini Lalaloopsy Treehouse has lots of engaging features on both sides of it that keep my kids entertained for hours. It's a toy that incorporates many cute ideas that children themselves would have wanted in the perfect toy! I thought that the tire swing on the zip line was so fun and then there is an elevator in the tree, a clubhouse that you can use in the tree or on the ground -- and the two mini dolls that come with it. You even get to play a whack-a-mole game! - Amazon customer

#8 Nerf Vortex Nitron

Product Name: Nerf Vortex Nitron

Best Price: \$42.31(over at [Amazon](#))

Recommended Age: 8 years & up

About

One of the latest designs in the ever popular range of Nerf guns.

The Nitron uses special, XLR (Xtra Long Range) technology to propel discs over an extremely large distance meaning even more fun for any child (or adult)...in fact some people claim that it shoots further than any other Nerf gun on the market!

Not only will your distance advantage give you the edge in your Nerf battles, but the Nitron features the first, fully automatic 20-disc, clip-fed blaster to help you completely annihilate the competition.

These features, combined with a fully electronic scope with pulsing target lights and the acceleration trigger on the blaster will make you a force to be reckoned with...

Nerf guns are a great toy for all ages...and they last! It's not the kind of toy that will be buried at the bottom of the toy box in just a few months time because your child got bored with it...they'll still be playing with it in 3 years time!

Your Nerf Vortex Nitron package includes:

- Nerf Vortex Nitron Blaster.
- Centerfire Tech Electronic Scope.

- 20 discs.
- Magazine storage.
- Assembly instructions.
- One of the most advanced Nerf guns you can get!

What Other Customers Say...

This Nerf gun is fantastic! Everything about it is cool. It shoots automatically and has great distance each shot. There's only two things I don't like about it. One, if you're shooting inside your house you can lose the discs (bullets) very easily. They basically bounce off every wall you have in your house! The second one, the laser sights that come with this gun aren't very useful. It's basically a flashing green light with low visibility. Once again this guns range is incredible! If you really want to test it go outside on a nice day with no wind and fire away!. My guess would be this gun shoots between 35-50 feet! It shoots farther than any other of my Nerf guns! My rating is 4.5 out of 5 stars. - Amazon customer.

My nephew has over ten different Nerf guns that we play with on occasion, and I can honestly say that this particular Nerf gun has got the longest range of any Nerf gun we've ever shot. We took it to an open field recently and measured how far it was able to shoot a disc. After five shots, the average distance was around 40 feet and the longest disc was close to 50 feet! Pretty amazing in my opinion for a simple Nerf gun. I'd definitely recommend it to any parents in the market for a cool gift for their kids that they will have a guaranteed good time playing with. - Amazon customer.

This new toy gun by Nerf came along just in time for my son's birthday. He was totally surprised by the gift, and was immediately ready to use it. All the other boys at the party eyed the Nerf gun with an excited and itchy trigger finger. This toy gun was a hit, though it would have been more fun if each of the boys had one - allowing for a full Nerf gun battle. I must confess, that I too am having lots of fun with this Nerf gun, and am half-way contemplating getting one for myself... - Amazon customer.

#9 Power Wheels Dune Racer

Product Name: Power Wheels Dune Racer

Best Price: \$220.00 (over at [Amazon](#))

Recommended Age: 36 months to 7 years

About

The Power Wheels Dune Racer will provide hours of extreme fun for almost any young child...ride on toys are always popular, but battery powered ride-ons are 'just the best'!

Unlike many other similar ride-ons, the Dune Racer performs just as well on rutted, slippery surfaces, as it does on the bitumen so your child can go almost anywhere – wet grass, gravel, mud & more!

But is it safe?

The Dune Racer has 2 speeds forward & reverse. It's maximum forward speeds are 2.5mph and 5mph so around about the same as an adult's walking pace.

Safety is further improved, with the addition of a high-speed lock-out option for beginners, Power Lock brakes & side safety bars.

And they haven't forgotten looks either. Plenty of chrome accents and large off road tyres, make it look just like the real thing.

Your Power Wheels Dune Racer package includes:

- Power Wheels Dune Racer.
- 1 x 12 volt battery and charger.

- Assembly instructions.
- Hours of outdoor fun!

What Other Customers Say...

It took my husband and father in-law about 45 minutes to put this together (not including the stickers - takes a female touch). I like how this is low to the ground, has a bar on each side so they do not easily fall out, and wide for stability. The steering wheel is also easy for him to use. Only two cons = my son is a short 3 year old and the pedal is hard for him to reach (I put a foam pad behind him to help push him forward) and the shifter lays right under his leg used to push the gas pedal (shifter is easily bumped). He does not seem to mind these cons it is just the parents and he can grow into it!!!! The traction is awesome and can go over or through MOST anything (wet long grass on a hill included)!!! It does really well with two kids in it and there is plenty of room. - Amazon customer.

It has really good traction on the road and on the lawn. My kids have played with these toys for hours. Very happy with it. - Amazon customer.

This toy literally caused the whole neighborhood to come out to take a look. The neighborhood kids ran up when they saw it in the back of the truck (after it had been assembled). They went nuts! Everyone was fighting over taking a turn on it from the toddlers to the 10 year olds! Although we did keep the bigger kids out of it. My nephew had a blast driving his little brother around in it and it was a huge hit with all of the parents too. The general consensus was, "So Cool!".

My husband spent about 30 minutes putting it together with basic tools and he said it was not hard at all. It's quite big and would be a very impressive Christmas gift for the kids. Overall, I'm very impressed! - Amazon customer.

#11 Lego Walkie Talkies

Product Name: LEGO Walkie Talkies

Best Price: \$19.99 (over at [Amazon](#))

Recommended Age: 7 – 15 years

About

This classic toy is a must for any child.

Kids love being able to have secret conversations with each other from opposite ends of the house or even down the road.

These ruggedly built, Lego Walkie Talkies can be up to 1 mile apart and still work! Buy one for your child & one for their best friend down the road!

They're very easy to use with a simple, one push talk button, volume control and one channel.

Your Lego Walkie Talkie package includes:

- 2 x Lego Walkie Talkies

What Other Customers Say...

My 5 year old really wanted a set of Walkie Talkies, a friend of ours researched and bought these for there son and raved about them when I asked. My son has had them for 3 months now and loves playing with them. They have very good reception and sounds quality. We live on 3/4 of an acre and he can be inside while dad is outside being 'spied' on. These are SO much better than what I remember walkie talkies being just 20 years ago. (Man I sound old!) - Amazon customer.

Love these. Works well far away...we live out in the country so the kids and go pretty far. They say they work up to a mile...it's probably close to that! 3 yr old uses them great....2 yr old doesn't quite get it all the time. Me and the hubby thought about getting some for us when he's out in the garage...jsut maybe not with the lego design! :) I think they are a fair price as well. Get them...kids will love them. - Amazon customer.

My son got these for his 7th birthday in January and we have all had a lot of fun with them. We have a two story house and my children mostly use them between floors or outside running around the yard. They have dropped a few times and continue to work perfect. A good buy so far. - Amazon customer.

#13 Air Hogs Hyperactives

Product Name: Air Hogs Hyperactives Pro Aero GX

Best Price: \$39.99 (over at [Amazon](#))

Recommended Age: 12 to 15 years

About

A powerful, all terrain remote control car for your teenager at an amazing price.

Struggling to keep your teen off the car racing video games?

An Air Hogs Hyperactives Pro Aero GX might be the answer! They can put their video game car racing skills to the test outside with this almost real, all terrain R/C car.

In spite of it's small size, the car is powerful, aerodynamic and loaded with added features. It can reach speeds of up to 20 miles an hour, which is about 500 miles an hour in scaled speed!

Off road, it can handle small obstacles & really get some air over the jumps thanks to extra suspension & grippy, rubber outdoor tires. But a quick change of tyres to the foam indoor set and it can be driven on carpeted surfaces just as easily.

One of the best features of this care though that really sets it apart from the others, is the fact that the controller runs on a multi band frequency. What does this mean?

You can have awesome Air Hogs Hyperactives races with up to 10 other cars, as the individual controllers won't interfere with each other!

Your Air Hogs Hyperactives Pro Aero GX package includes:

- Air Hogs Hyperactives Pro Aero GX car (available in your choice of red/gold, metallic blue/silver, blue/yellow, metallic orange/white).
- 4 x rubber tires.
- 4 x foam tires.
- 1 x pistol grip remote.
- Instruction manual.
- Interactive, outdoor fun for your teenager!

What Other Customers Say...

Bought for my son's 9th birthday and he has a blast racing this around the house! Perfect for jumps and he even launched it down the stairs without any damage! Reliability is great! - Amazon customer.

My two sons love this car. The steering is difficult for indoors and around furniture. Outdoors in a parking lot with open space it works great!! - Amazon customer.

#14 LeapFrog Learn & Groove

Musical Table

Product Name: LeapFrog Learn & Groove Musical Table

Best Price: \$39.97 (over at [Amazon](#))

Recommended Age: 6 months to 3 years

About

Though not new for 2011, this brilliant product by LeapFrog just keeps on making the best seller toy lists...babies & toddlers just love it!

This bright, interactive table will keep your little one engaged for hours with over 15 different musical activities & more than 40 songs and melodies – including nursery rhymes, upbeat dance tunes & more - that will help to encourage early reading, maths and language development skills.

The Learn & Groove Musical Table will help to teach your toddler the letters of the alphabet, numbers 1 to 10, colors & shapes, first words and cause & effect.

Plus the legs are removable so you can sit the table on the floor for the smallest of infants to use!

It's one of a select few toys that has really managed to effectively combine fun with early education.

Your LeapFrog Learn & Groove Musical Table package includes:

- 1 x Learn & Groove Musical Table.
- 4 x green or blue removable table legs.

What Other Customers Say...

My mom bought this table and I bought a Fisher Price table. The kids love the Leap Frog Table and hate the Fisher Price one. The Leap Frog one is awesome! It has two options, words or music. So for the little ones to whom words don't mean much, you can use the music reinforcement and my toddler (age 2) likes the word option now. Great for around age 8 months when they start pulling up to stand. Love Love Love this table. - Amazon customer.

I got this for my 9 month old son and his eyes lit up the moment he saw and heard it. He wasn't pulling up at the time I got it for him. However, within a few weeks of having this table, he was pulling up on anything he could get his hands on. He is particularly fond of the blue lid that can double as a little cubby for small objects. He ventures to that area of the table and his face gets this look like, "WOW!" I am 100% pleased with this table and my son thinks it is so great, as well. I would definitely urge others to get this table for infants that are in the "just started to crawl and learning to pull up and cruise" stage. It has helped wonderfully! - Amazon customer.

This musical table is great and keeps my 6 month old's attention for some time. She isn't walkin yet but she loves to stand around it while I support her. She's learned to turn the pages and bangs on the keys. This is definitely one of her favorite toys and she should be able to use this for a long time. I would recommend this toy to anyone with a 6 month old up to 2 years. - Amazon customer.

About

If your little girl loves Dora, then they'll be rapt to wake up and find the Dora Fiesta Favorites Kitchen under the tree on Christmas morning!

They'll have an absolute blast cooking up a storm in this realistic kitchen, with all the accessories they could possibly need to create a feast for the family, or maybe just cook up some cakes for a teddy bear's picnic!

The set comes with a double-sided recipe card with some starter recipes for your junior chef, complete with colorful pictures. Press the flower buttons on the book display & Dora's voice will guide your child through each recipe.

They can cook food on the stove top, or the 2 level oven, store ingredients in the fridge then wash the dishes in the sink when they're finished.

Your Dora Fiesta Favorites Kitchen package includes:

- Dora Fiesta Favorites Kitchen.
- Food & place-setting pieces – saucepans, kitchen tools, pretend food etc.
- Double-sided recipe card.

- 3 x AA batteries.
- Instructions.
- Plenty of practice for any budding young chef!

What Other Customers Say...

The Fisher-Price Dora Fiesta Favorites Kitchen is recommended for children age 24 months to 6 years. However, my 18 month old daughter absolutely adores this toy. She has a very short attention span like most toddlers, but she will happily play with this kitchen for at least 30 minutes at a time.

The kitchen comes with a lot of accessories, including food, cookware, recipe cards, a phone, and various utensils. With these accessories, a child can create four recipes - an ice cream sundae, tacos, Huevos Rancheros, or a hamburger. There are also accessories packages that can be purchased separately that can add to the fun, especially for a child older than my own. I have not purchased any of these yet, but I see that Amazon sells the kit for apple pie and cookies.

I was expecting assembly to be a nightmare, but I was pleasantly surprised. I am not a handy person by any stretch of the imagination, and it only took me around 30 minutes to assemble this. A screwdriver was the only tool needed. - Amazon customer.

My 7 year old was so excited to get this kitchen. He had been wanting one for quite awhile. He really wanted a "boy" kitchen, but since he like Diego and Dora, he was ok with this. It's the perfect size too. It's big enough so that he can feel like it's a real kitchen, yet small enough that I can easily push it up against his bedroom wall. It's bright and cheery and talks! The dishes will easily store inside the kitchen, so cleanup is a snap. Fisher-Price is obviously a name you can trust. This is a quality toy.

I'm planning on building a small playhouse for my kids in the yard so this will be perfect to fit inside. This, and a little couch, table and chairs...they'll have a blast! - Amazon customer.

Even before here father found a screw driver to put this together, out three year old found the talking parts and started repeating the Spanish. She played with the food, while her less than handy dad got this together with not too Much pain

She loves it, and stands In her kitchen cooking and talking back to Dora an hour at a time.

...An absolute favorite toy! We highly recommend – Amazon customer
